хакер

Хакер - это исследователь, одержимый желанием понять¹⁾, как все устроено. Это программист, который копается в кишках систем, не потому что «надо», а потому что не может иначе. Это ценитель хитроумных решения, обходных путей, элегантных трюков и всего, что превращает рутину в интеллектуальную игру.

Быть хакером - это не только про компьютеры, это про подход. Хакер астрономии будет так же одержим звездами, как хакер Unix ядром. Это про механистический подход: машина - не «чёрный ящик», а система, структура, набор компонентов.

Маскульт часто лепит на хакеров ярлык [крякеров](#)²⁾. Но не каждый хакер - взломщик, тем более не каждый взломщик - хакер.

Основы хакерской культуры изложены [Mentor'ом](#) в его Hacker's Manifesto:

Another one got caught today, it's all over the papers. "Teenager
Arrested in Computer Crime Scandal", "Hacker Arrested after Bank
Tampering"...
```

```
Damn kids. They're all alike.
```

```
But did you, in your three-piece psychology and 1950's technobrain,
ever take a look behind the eyes of the hacker? Did you ever wonder what
made him tick, what forces shaped him, what may have molded him?
```

```
I am a hacker, enter my world...
```

```
Mine is a world that begins with school... I'm smarter than most of
the other kids, this crap they teach us bores me...
```

```
Damn underachiever. They're all alike.
```

```
I'm in junior high or high school. I've listened to teachers
```

explain

for the fifteenth time how to reduce a fraction. I understand it. "No, Ms. Smith, I didn't show my work. I did it in my head..."

Damn kid. Probably copied it. They're all alike.

I made a discovery today. I found a computer. Wait a second, this is

cool. It does what I want it to. If it makes a mistake, it's because I screwed it up. Not because it doesn't like me...

Or feels threatened by me...

Or thinks I'm a smart ass...

Or doesn't like teaching and shouldn't be here...

Damn kid. All he does is play games. They're all alike.

And then it happened... a door opened to a world... rushing through the phone line like heroin through an addict's veins, an electronic pulse is sent out, a refuge from the day-to-day incompetencies is sought... a board is

found.

"This is it... this is where I belong..."

I know everyone here... even if I've never met them, never talked to them, may never hear from them again... I know you all...

Damn kid. Tying up the phone line again. They're all alike...

You bet your ass we're all alike... we've been spoon-fed baby food at

school when we hungered for steak... the bits of meat that you did let slip through were pre-chewed and tasteless. We've been dominated by sadists, or ignored by the apathetic. The few that had something to teach found us will-

ing pupils, but those few are like drops of water in the desert.

This is our world now... the world of the electron and the switch, the

beauty of the baud. We make use of a service already existing without paying

for what could be dirt-cheap if it wasn't run by profiteering gluttons, and you call us criminals. We explore... and you call us criminals. We seek after knowledge... and you call us criminals. We exist without skin color, without nationality, without religious bias... and you call us criminals.

You build atomic bombs, you wage wars, you murder, cheat, and lie to us and try to make us believe it's for our own good, yet we're the criminals.

Yes, I am a criminal. My crime is that of curiosity. My crime is that of judging people by what they say and think, not what they look like. My crime is that of outsmarting you, something that you will never forgive me

for.

I am a hacker, and this is my manifesto. You may stop this individual,

but you can't stop us all... after all, we're all alike.

rfc 1983 называет это «delights in having an intimate understanding», тоесть «наслаждение доскональным пониманием»
